Invisalign
clear aligners, real function.

A series of clear, custom, removable trays that move your teeth a little at a time. Straightening is not only about how your smile looks: it is about how your teeth meet, how well you can keep them clean, and how long they last.

WHY COMPLETE ORTHODONTIC TREATMENT

01

Function

A misaligned bite overloads certain teeth. Over time this occlusal disease shows up as wear, chipping, cracks, recession and jaw strain. Aligned teeth share chewing forces the way they were designed to.

02

Biology

Crowded, overlapping teeth trap plaque where a brush and floss can't reach. Straight teeth are easier to clean, keeping the gums and bone that support them healthier.

03

Esthetics

An even, confident smile follows once function and health are right. Straight teeth are also the best foundation for any bonding or veneers later.

INVISALIGN + FINISHING BONDING

Crowded to aligned, *then finished by hand.*

This patient started with crowded, overlapping front teeth. Invisalign brought them into line, and the small gaps that showed once the teeth were straight were closed with tooth-colored bonding.

1 Crowded & overlapping
Front teeth rotated and stacked, trapping plaque between them.

2 Aligned
Teeth in line and the bite balanced, with attachments removed.

3 Small gaps appear
Where teeth once overlapped, minor spaces show once they're straight.

4 Finished with bonding
Gaps closed for a smooth, even smile.

FINISHING TOUCHES

Small gaps after aligners are a normal part of the process, not a sign anything went wrong. Dr. Gandhi closes them with **tooth-colored composite bonding**, shade-matched and sculpted onto the edges of the teeth. It's conservative, usually adding to the tooth rather than removing any, and is done after attachments come off so your retainers fit your finished smile.

Straighter teeth are healthier teeth!

THE FULL WORKFLOW

Six visits, *a little movement at a time.*

After a digital iTero scan, your first trays are ready about three weeks later. Each tray is worn for one to two weeks, and small tooth-colored attachments may be bonded to help the trays grip and move teeth precisely.

DAY ONE

1 Consultation

Exam, X-rays, photos and a digital iTero scan of your teeth.

ABOUT 3 WEEKS

2 Start & Delivery

First trays fitted and attachments placed.

1–2 WEEKS PER TRAY

3 First Follow-Up

Fit and tracking checked; your next trays are issued.

ABOUT 1 WEEK PER TRAY

4 Progress Checks

Wear time per tray often shortens as you progress.

IF NEEDED

5 Refinement

A new scan is taken and refinement trays follow about 2 weeks later.

FINISH

6 Retainers

Attachments removed, any finishing bonding done and retainers delivered.

THE ONE RULE

22 hours a day

A Out only to eat
Trays come out to eat and brush, then go straight back in.

B Seat every tray
Use your chewies so each tray sits fully on your teeth.

C Retainers after
Wear them as directed so your new smile doesn't drift back.

BEFORE YOU START

- Healthy gums are required; any cleaning comes first.
- X-rays and photos are taken at the consult.
- Review and sign your treatment consent.
- Starting promptly matters; teeth keep shifting.

WEARING YOUR ALIGNERS

- Wear them 22 hours a day, out only to eat and brush.
- Use your chewies to seat each tray fully.
- Store them in their case, never in a napkin.
- Water only with trays in; heat and dark drinks stain.

Timing is typical and is confirmed in your personal treatment plan. This guide is general information and does not replace the instructions given to you by your provider.

QUESTIONS & AFTER HOURS

CALL/TEXT **(404) 418-7445**

Reach out promptly for a lost or broken aligner, severe pain, or a sharp attachment.

PRICING OVERVIEW

A healthier bite for life. *Priced in full, up front.*

TOTAL INVESTMENT

Invisalign with final retainers

$6,535

COMPLETE TREATMENT · SIX VISITS

Invisalign D8080 Comprehensive clear aligner treatment	$5,836
Final retainers RT4 Keep your teeth where they belong after treatment	$699
Total	$6,535

THREE WAYS TO PAY

01

Pay in full

Cash, check or credit card on your scan (impression) date.

SAVE 2%

02

Finance

CareCredit, Lending Club or Sunbit, for a smaller monthly payment.

LOW MONTHLY

03

Three installments

Cash, check or credit card. Insurance benefits are applied if your plan covers orthodontics.

SCHEDULE BELOW

SCAN DATE · DOWN PAYMENT

$1,500

Installment amounts shown with no insurance estimate; any insurance paid to the office reduces the balance. **Down payments are nonrefundable.** Any insurance benefit is an estimate, not a guarantee; patients are responsible for understanding their plan's coverage.

GETTING STARTED

Your first step is a consultation with X-rays, photos and a digital iTero scan. We'll show you your plan, your timeline and your exact fee before anything begins.
